

LESSON 3 ASSIGNMENT

-CREATE A "FIVE VALUE" DRAWING OR PAINTING FROM YOUR OWN REFERENCE.

-ALSO CREATE TWO FIVE VALUE RELATIONSHIP "OVERLAYS" OVER TOP OF THE PROVIDED REFERENCE (AS WELL AS ONE OF YOUR OWN CHOOSING).

*****REMEMBER THAT YOU WANT TO INDICATE 2 VALUES IN THE DARKS AND 3 VALUES IN THE LIGHTS WHEN CREATING THE VALUE OVERLAYS. REMEMBER TO SIMPLIFY HEAVILY IN THIS STAGE. YOU ARE BREAKING DOWN NUMEROUS VALUES TO ONLY FIVE. SEPARATE THE VALUES INTO REGIONS AND DEFINE THOSE REGIONS AS YOU SEE ON MY EXAMPLE.

*****WHEN YOU ARE PAINTING YOUR FIVE VALUES THEY NEED TO BE AS ACCURATE AS POSSIBLE. YOU NEED TO SEPARATE THE VALUES INTO REGIONS, BUT YOU HAVE TO COMPARE, COMPARE, AND COMPARE SOME MORE. YOU WILL BE SIMPLIFYING, BUT MAKE THE MOST ACCURATE CHOICES YOU CAN TO REPRESENT WHAT THE VALUE SHOULD BE.
